

# Georg's Procreate MANGA & ASIAN PAINT Brushes

Thank you very much for purchasing my Procreate brushes!

## How to install your new brushes

You can download the zip file to your PC/Mac, extract to Dropbox or any cloud storage, then open it in Procreate. Here is a tutorial for downloading/importing the brushes:

If you have a Mac with AirDrop, this is the fastest way to import multiple brushes and complete sets at once:

For downloading the zip file directly to your iPad/iPhone I recommend using the FileBrowser app (or other free apps like Documents 5 that work in a similar way):
